SUPPORTING BUILDERS WITH RELIABLE, PROFESSIONAL DELIVERY

WHO WE ARE

TM Pro Plumbing is a Sydney Metro-based, construction-focused plumbing contractor delivering reliable, high-quality outcomes for builders.

Operating as part of the build team, TM Pro Plumbing takes ownership of its scope, coordinates effectively with other trades, and supports efficient project delivery from start to finish.

A strong emphasis is placed on clear communication, professionalism, and representing the builder to the highest standard on every project.

WHAT WE DO

TM Pro Plumbing provides complete plumbing solutions across all stages of construction – from initial planning through to final handover.

A proven, structured process ensures every project is:

- 💧 Clearly scoped from the outset
- 💧 Well-coordinated on site
- 💧 Delivered efficiently
- 💧 Completed to a high standard

Quality materials from trusted suppliers are specified across all projects, supporting durability, compliance, and high-quality finishes.

QUALITY ASSURANCE

TM Pro Plumbing operates with industry-aligned systems that support compliance, consistency, and accountability across every project.

Quality is non-negotiable:

- ✓ Building Code compliant
- ✓ Fully insured and licensed
- ✓ Detailed site documentation
- ✓ Consistent quality control processes

SAFETY, QUALITY & COMPLIANCE

Safety is embedded in every aspect of how TM Pro Plumbing operates.

- 💧 SWMS and pre-starts on every project
- 💧 Risk-based approach across all works
- 💧 Ongoing training and safety awareness
- 💧 Well-maintained, compliant equipment

EXPERIENCE THAT MATTERS

Our experience across new builds and renovations has developed strong capability in:

- ✓ Working within live and occupied environments
- ✓ Coordinating effectively with multiple trades
- ✓ Delivering works efficiently with minimal disruption
- ✓ Maintaining quality under tight construction timelines

OUR VALUES

Loyalty

Strong, long-term builder relationships

Customer Service

Customer satisfaction comes first

Results

Quality outcomes, every time

Commitment

Reliable and consistent delivery

Tailored Solutions

Practical, project-specific solutions

Collaboration

Open, honest communication

**PLANNED PROPERLY.
INSTALLED PROFESSIONALLY.
DELIVERED WITHOUT
COMPROMISE.**

OUR PROVEN PROCESS

Our team at TM Pro Plumbing follows a structured, proven process to ensure clarity, quality, and consistency on every project.

CORE PLUMBING CAPABILITIES

 Core Services	• Water services • Gas installation • Drainage systems • Stormwater solutions • Excavation & groundwork
 Additional Services	• Plumbing upgrades • Repair works • Warranty support
 Maintenance	• Preventative maintenance • Ongoing servicing & support

MANAGEMENT SYSTEMS

TM Pro Plumbing runs an integrated digital management system for safe, high-quality, and transparent project delivery:

- 💧 Real-time job tracking and communication
- 💧 Full project documentation (photos, notes, records)
- 💧 Quality checklists and reporting
- 💧 Clear team coordination
- 💧 Structured safety management

Plan & Define Scope

- Review plans & project requirements
- Provide practical recommendations
- Identify gaps, risks, & future provisions
- Lock in a clear & complete scope

Groundworks & Drainage

- Confirm layouts, set outs, & fixture locations
- Install drainage & water services
- Verify measurements & compliance
- Prepare site for next stage

Rough-In

- Finalise system design & pipe sizing
- Install pipework for long-term performance
- Optimise water pressure & drainage flow
- Pressure test all systems
- Record & document all services

Fit-Off & Completion

- Confirm all fixtures onsite before install
- Complete high-quality fixture installation
- Test all systems for performance
- Deliver a clean, finished result

Handover & Support

- Walkthrough with builder/client
- Provide system guidance & advice
- Ongoing maintenance & support available

QUALITY WORK. CLEAR
PROCESS. NO SHORTCUTS.

WHY BUILDERS CHOOSE TM PRO PLUMBING

- **Built for Construction** - Strong understanding of construction environments, timelines, & trade coordination.
- **Clear Communication** - Consistent, transparent communication with builders & site teams to keep projects progressing.
- **High Standards, Every Time** - Focus on long-term performance, quality materials, & finishes that align with the overall build standard.
- **Structured & Reliable** - Proven systems and processes ensure each stage is planned, tracked, & delivered efficiently.
- **Accountability** - Clear documentation, defined scope ownership, & ongoing support provide confidence throughout the project lifecycle.

PROJECT TYPE	PROJECT CAPABILITIES
New Build Homes 	• Specialists in custom home plumbing systems • Plan pipe runs to maximise ceiling heights and reduce bulkheads • Optimise systems for pressure, flow, and hot water delivery • Minimise noise through correct sizing and installation • Deliver clean, reliable systems built to last
Bathroom Renovations 	• Rework layouts to improve function and usability • Provide practical solutions for new fixture locations • Connect to existing services the right way • Equipped for concrete cutting and core drilling • Work cleanly to represent the builder professionally
Large Extensions 	• Treat extensions to new build-level quality • Replace pipework where required, not just patch • Test existing services before connecting new work • Upgrade old systems to avoid future issues • Stage works to suit occupied homes
Townhouse Developments 	• Experience across multi-dwelling developments • Install below-ground drainage, pump-out, and subsoil systems with maintenance access • Add backup drainage at low points in basements (lifts, turntables, ramps) • Photograph and document all pipework • Clear tracking and quality control across every fixture in each house
